

AI Resume Screener

Sample pitch — for demo/testing in your Flutter app

What it is

- A privacy-first, on-device resume screening tool
- Redacts PII and mitigates bias signals before review
- Integrates with ATS via simple API

Problem

- High screening volume overwhelms recruiters
- Hidden bias signals leak into decisions
- Compliance & privacy risk with PII handling

Solution

- On-device redaction of PII before review
- Signal-normalized scoring to reduce bias
- One-click audit log for compliance

Product

- Batch upload resumes (PDF/DOCX)
- ATS connector: Greenhouse / Lever
- Export: CSV / JSON / Webhook
- Reviewer dashboard & notes

Technology

- On-device NLP inference
- PII redaction + hashing
- Bias-mitigation scoring
- Zero data retention by default

Traction

- Pilots with 3 recruiters (Q4)
- ~30% faster shortlisting in tests
- Positive reviewer UX feedback (4.6/5)

Business Model

- SaaS per seat, annual
- Optional enterprise support
- Custom connectors as add-ons

Roadmap

- Q1: Additional ATS connectors
- Q2: SOC2 Type II
- Q3: On-prem deployment option
